DETAILED ACTION

1. Application filed on 9/18/2003 has been fully considered.
2. IDS submitted on 1/12/2004 have been considered.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowable over the prior art of record because none of the prior art teach or suggest the claimed combination as recited, particularly require in combination as: wherein a minimization algorithm minimizes an error function that measures a difference between a windowed frequency representation of a tone at a given frequency and a given amplitude and a plurality of points (claim 1); wherein a minimization algorithm minimizes an error function that measures a difference between a windowed frequency representation of a tone at a given frequency and a given amplitude and a plurality of points, and controlling the code for selecting and calculating to perform selecting and calculating for each of a plurality of peaks (claim 10); wherein a minimization algorithm minimizes an error function that measures a difference between a windowed frequency representation of a tone at a given frequency and a given amplitude and a plurality of points that surrounds a respective one of a plurality of trace peaks (claim 16).

The closest prior art (DE10131251A1) discloses measuring multi-tone signal frequencies and amplitudes involves computing filter coefficients for minimal output power as signal passes through combination of notch filter models defined by coefficient

and also disclose a device for measuring frequencies and amplitudes of the multi-tone signal. However, the technique does not disclose the claimed combination as recited in the current application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
